

Navigating Brussels with ELLS 2025

How can the EU help you develop your scientific career?

Dates: June 3-5, 2025

Location: Brussels, Belgium (various locations near the European Parliament)

Organised by: ELLS Research Support Office Team

Why join?

This 3-day intensive course will help you unlock opportunities for advancing your scientific career through European research programmes. Here's what you can expect:

- **Learn** about European research funding tailored to early-career researchers.
- **Collaborate** on project development in an interdisciplinary and international setting.
- **Network** with colleagues and peers from universities across Europe.
- **Discover** the inner workings of Brussels institutions and European policies.

What will you gain?

Through a blend of presentations, site visits, workshops, and networking, this course will provide:

- An introduction to European funding programmes for early-career researchers and key elements of proposal writing.
- Tools to evaluate your current career stage, identify strengths, and develop new skills.
- Insights into European research policy and funding, and guidance to apply this knowledge to future proposals and projects.
- Knowledge of research-related career opportunities outside academia and industry.

Who can apply?

- Final-year PhD candidates and junior postdocs (0–3 years post-PhD) at participating universities.
- Each participating university has three places available (24 places in total).
- Repeat participation is not permitted.

Course costs

- **Course Fee:** Free.
- **Travel Support:** Participants will receive a grant to contribute towards travel costs.
- **Included:** Lunches and tea/coffee during the course and one joint dinner.
- **Not Included:** All other expenses must be covered by participants or their university.

How to apply

- **Application opens:** January 13, 2025, via an online form ([link](#))
- **Deadline:** **February 16, 2025**
- **Notification:** Decisions will be communicated by mid-March 2025
- **Confirmation:** Successful applicants must confirm participation by April 11, 2025

Selection criteria

We will choose participants on a first-come, first-served basis, provided they meet the following criteria:

1. Eligibility requirements are met (employed at an organising university, correct career age)
 2. A strong motivation statement is submitted
 3. Gender balance is maintained among participants from each university
 4. A diverse range of academic disciplines (max. one participant per department from each university)
-

Take this opportunity to deepen your understanding of European research programmes, expand your professional network, and experience the heart of EU policymaking in Brussels.

Apply and chart your path to success!
