The Faculty of Natural Sciences at the University of Hohenheim awards

4 scholarships to participants of the doctoral school "Biodiversity throughout times"

who are at the beginning of their postgraduate studies. The scholarships are offered for two years starting August 2020 (backdated). An extension may be granted only in exceptional and well-justified cases for a maximum of 12 months. The formal conditions of acceptance as a doctoral candidate at the Faculty of Natural Sciences of the University of Hohenheim have to be fulfilled by the applicant. Please be aware that scholarship holders must apply for and take part in the Faculty's Doctoral Study Program. The Faculty of Natural Sciences at the University of Hohenheim wishes to attract outstanding doctoral candidates.

The four PhD-projects will work on the following topics:

1. Ecosystems and climate change (Prof. Dr. R. Schoch | rainer.schoch@smns-bw.de)
2. Mechanisms of speciation (Prof. Dr. J. Steidle | j.steidle@uni-hohenheim.de)
3. Ecosystem services and insect decline (Prof. Dr. L. Krogmann | lars.krogmann@smns-bw.de)
4. Decline of plant species (PD Dr. Mike Thiv | mike.thiv@smns-bw.de)

For non-subject-specific information about the application as a doctoral candidate please refer to the Graduate Academy of Hohenheim (<https://www.uni-hohenheim.de/en/graduate-academy>).

Applications as one pdf file including all documents and detailed information should be sent via email to the chair of the doctoral committee of Natural Sciences (100), Prof. Dr. Reinhard Kohlus, email: natur@uni-hohenheim.de. The deadline for this application is 15.07.2020. Please note that only complete applications will be considered.
